

TERRA CRANE

Truck Mounted Cranes, Knuckle Booms, Aerial Platforms,
Custom Vehicles, Telescopic Boom Crane, Crane Attachments

- Top 3 crane truck manufacturer in China.
- European-standard tech, trusted quality.
- Custom solutions, built to perform.

About Terra Crane

China Leading Producer of Truck Cranes

Terra Crane is one of China's leading truck-mounted crane manufacturers.

ABOUT TERRA CRANE

TERRA CRANE is one of China's leading manufacturer of truck-mounted cranes. Our crane brand, commands over 15% of the domestic market in the low- to medium-tonnage segment. Founded in 2019 and based in Suizhou—the hub of China's special-purpose vehicles—we operate with top reputation of the industry and an annual capacity of 20,000 units. We specialize in knuckle boom and straight boom cranes, while also offering a wide range of special vehicles including water trucks, aerial platforms, and tow trucks. As a strategic partner of Sany Palfinger, our products combine European-standard technology with durable Chinese manufacturing. Our cranes feature dual hydraulic pumps, under-load boom extension, smart overload protection, and operator-friendly details like LED safety lights and handwash tanks. Built with high-strength HG70 steel, every crane is precision-cut, welded, tested, and beautifully coated before delivery. With proven quality, global exports, and custom solutions, TERRA is a trusted partner in lifting territories worldwide.

The background of the entire page is a photograph of three large, dark-colored cranes. They are positioned diagonally across the frame, extending from the bottom left towards the top right. The sky is a mix of blue and orange, suggesting a sunset or sunrise. The cranes have multiple cables and pulleys attached to their jibs. In the lower part of the image, a construction site or industrial area is visible, with various structures and equipment.

WHAT DRIVES TERRA?

At TERRA, we are driven by a deep commitment to engineering excellence, customer trust, and meaningful innovation. From the heart of China's specialized vehicle manufacturing hub, we build more than machines—we create solutions that empower industries, move economies, and serve communities.

What drives us is a passion for precision, a culture of continuous improvement, and the unwavering belief that quality and reliability are non-negotiable. We are proud to be the force behind thousands of lifting operations nationwide, backed by a dedicated team, world-class facilities, and a relentless pursuit of safety and efficiency.

With every crane we deliver and every vehicle we customize, we move forward—powered by purpose, built with integrity.

Knuckle Boom Truck Loader Crane

High-Strength Steel • Laser Cutting & Robotic Welding Load • Sensitive Hydraulic System
Electrophoretic Coating • Compact design, easier installation • Flexible boom for tight spaces

AUGERS

Fueled by innovation

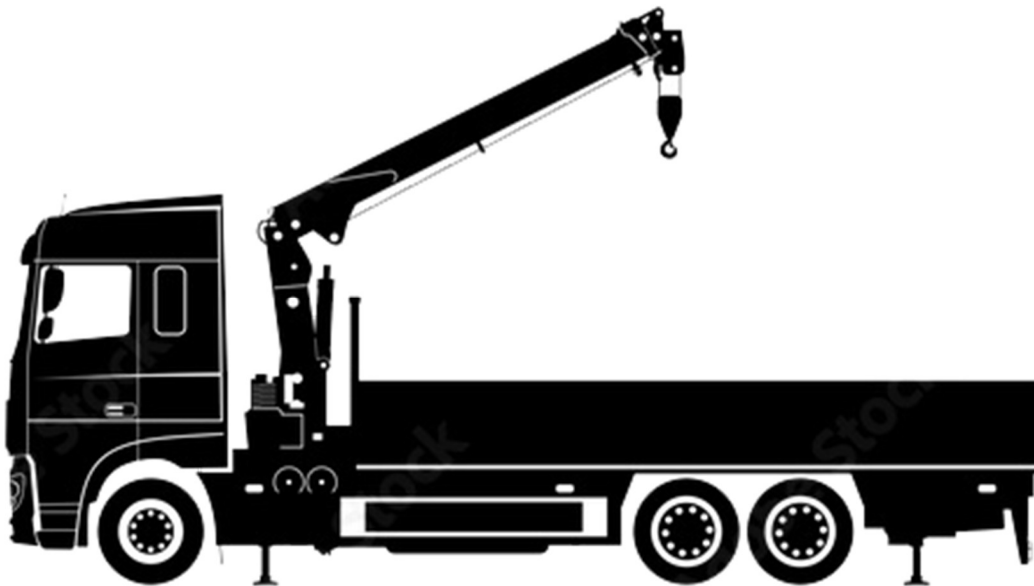

To build the crane of future

At Terra, innovation isn't a department — it's our DNA. Every weld, every mechanism, every crane we build carries the vision of tomorrow's lifting standards.

In just over a decade, we've grown into one of China's leading crane manufacturers — through relentless focus on structural optimization, high-strength materials, and precision manufacturing. Our R&D teams continuously improve boom design, corrosion resistance, and stability performance to meet the real-world demands of today's work sites.

We are equally committed to safety. From intelligent limit protection to user-friendly operating controls, we build cranes that are as smart as they are strong.

Sustainability also drives our direction. With more efficient hydraulic systems

and environmentally responsible production practices, we aim to reduce emissions without compromising performance.

Stronger, higher, more mobile — our cranes are engineered to lift with confidence. At Terra, we don't just follow progress. We build it.

Built with Experience.

Grown with Trust.

We know cranes — not just because we build them, but because we've lived every part of their journey.

From hands-on experience in crane repair and resale, to the precision of modern design and manufacturing, our knowledge runs deep and real.

We've stood beside operators on job sites. We've listened to customers in the field. We've learned not from assumptions, but from use, wear, and demand.

That's why our cranes don't just meet expectations — they're shaped by them.

Every weld reflects experience. Every feature answers a real need. Every solution is built together with the people who use it.

Innovation Drive

Customer Oriented

WHY US?

Comprehensive Product Portfolio

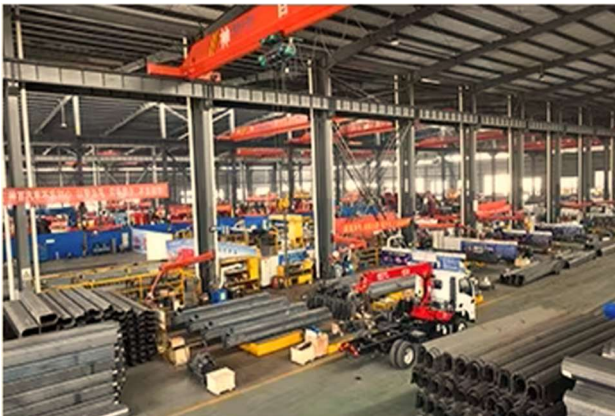

While Terra is best known for its knuckle boom and straight boom truck-mounted cranes, we also produce a wide range of special-purpose vehicles, including:

Water trucks, Aerial work platforms,
Tow/recovery trucks (wreckers),
Dump trucks, garbage trucks, fuel tankers,
and more..

This broad product line allows us to serve a variety of industries, including logistics, construction, municipal services, agriculture, and emergency response.

Global Collaboration

Terra Crane is a strategic partner of Sany Palfinger, and we incorporate crane models and components from internationally recognized brands such as Palfinger, UNIC, Tadano, Zoomlion, and Changxing. This global integration ensures our cranes meet European-level standards in both safety and performance.

High Manufacturing Standards

Our truck-mounted cranes are equipped with dual hydraulic pumps for enhanced speed and strength, under-load extension capability for improved safety, and smart weighing systems to prevent overloading. Features like LED safety lights and built-in handwash tanks reflect our attention to operator comfort and practical design.

Quality First, Tested for Excellence

Every Terra crane is built using high-strength HG70 steel, precisely laser-cut, robotically welded, and professionally coated to ensure long-lasting durability. Before any unit leaves our factory, it undergoes strict testing to ensure it meets our rigorous quality standards — only the best reach our customers.

Let's Build the Future Together

Whether you need a single truck crane or a fleet of special-purpose vehicles, Terra Crane is ready to be your reliable partner. We welcome business cooperation, distributor inquiries, and OEM/ODM opportunities.
